Reinstatement of Patent Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office

Any person whose name has been removed from the Register of Attorneys or the Register of Agents pursuant to 37 CFR 1.347 may request reinstatement on the appropriate register. However, where the long lapse of time since removal or other circumstances indicate that the person may no longer be qualified for registration, the Committee on Enrollment may require the person to again show that he or she satisfies the requirements of 37 CFR 1.341(c) and that registration would be appropriate before reinstatement is granted.

Report on Results of a June, 1978 Survey on the Citation by Applicants of Prior Art in Patent Applications

This report summarizes the data compiled from a sample of 724 allowed applications surveyed in the Office of Patent Program Control during the weeks of June 4 to June 17, 1978.

All applications in this survey were filed on or after July 1, 1977, the effective date of the establishment of new rules 37 CFR 1.97–1.99 relating to the citation of prior art by applicants.

For the purposes of the survey, a "citation," whether appearing in the specification or in a separate paper, is defined as (1) a listing of patents or publications together *with* a concise explanation of the relevance of each listed item [i.e. a prior art "statement" under 37 CFR 1.98(a)] or (2) a "mere listing" of patents or publications. In addition, a "reference" is defined as any patent or other publication cited by applicant.

This survey is similar to and presented in the same general format as the survey published in the Official Gazette of November 23, 1976, pages 1356 and 1357.

The statistics are presented without comment.
